

“The original direct print and fixation” since 2003.

- No other printer in its class can still reach its level of colors and productivity.
- You are able to expand the color gamut and reproduce eye-catching colors like rich reds, deeper blacks, royal purples, fluorescent yellows and pinks.
- Excellent penetration for great looking prints at both front and rear sides.
- Superb color-fastness and water-resistance for outdoor printings.

Patent textile feeding system

This state-of-the-art device provides an easy and excellent run-ability for printing on fabrics.

Heat-Fixation unit

Allows an uniform printing and fixing with no color differences between the front and the back side.

Soft-Signage on Textile

Eye-catching rich reds, deeper blacks and royal purple colors are now possible with Teleios: the world's most installed digital textile printer in the soft-signage market.

Superb fastness and water-resistance

Excellent penetration and superb color fastness. Now, even water-resistant flags look great on both sides.
